The core family tree view is very configurable You might choose to show all generations, just immediate family, maybe those born after a particular date; there are options to hide descendants, ancestors, siblings and more; you can show or hide dates, photos, genders and so on; there are even built-in themes to change the background and colour scheme.. A host of other views are just a click away There's an ancestors tree; an interactive timeline; lists of sources, photos, stories and more, and handy pages of statistics and family details.. (If you'd like a count of the surnames in your family tree, say, or a graph showing the distribution of family ages at death then you'll find them here. [Teamviewer Para Mac Powerpc](#)
